

## **Desert Cove Homeowners Association**

---

**Director at Large**

**Bob Tutush**

**September 2026**

**1<sup>st</sup> year of 2 year term**

I lived in North Vancouver pretty much all my life. We have two children and four grand children. I worked as an industrial electrician until becoming a maintenance Head foreman at a bulk loading facility in 1996. We lived in North Vancouver in a large townhouse complex for 25 years and served on a strata board for approximately 2 years. While there we lived very close to the Baden Powel trails and spent many miles biking on there with our dogs, first Kayla and then Teaka.

We spent the last 40 years, every summer, at Sheridan Lake where there was lots of family holidays with fishing, water sports, camp fires and always great food. There were many summer friends and as we all aged, time came the lake holidays came to an end. Now it's our wonderful lakes and trails here we intend to enjoy to the fullest.

My wife and I retired to Vernon in 2015. After residing in the foothills for 7 years, we moved to Desert Cove in 2022, where we hope will be our last place of residency, not including the old folks home of course. It is such a pleasure to live here, what we call paradise, and meet so many wonderful neighbors.

My interests include wood working, boating, water sports, skiing, pickleball and last, but certainly not least, lots of happy hours with our friends in the cove.

I look forward to assisting the board and hopefully can be useful during my term.
