

Director-at-Large Report
Year End August 31,2021
June MacGregor

The Director-at-Large positions, as specified in duties and responsibilities of DCHA Directors, are determined by the President which might be to assist other Directors in the completion of their tasks or to take on an ad hoc role.

This year, my second in the position, I have assisted in the rewording of the Constitution and drew up a list of Membership Benefits, which appears on the DCHA website. I arranged for and delivered new optional magnetic name tags but, unfortunately, Covid 19 restrictions have prevented our usual community activities so the name tags remain in their unused condition at this time. As restrictions hopefully ease, I will be taking more orders.

My role as liaison with Ministry of Transportation and Infrastructure (MOTI) with regard to the Head of the Lake (HOL) Road began in the new year and has been ongoing, with good co-operation and communication. In May, I was told that the repaving project would be done this Fall. The wildfires put this timeline in jeopardy but , as we can see, we have a freshly paved road.

It has been another interesting and challenging year dealing with covid restrictions, to say the least, but my fellow Board members have persevered and been a pleasure to work with. Thank you to them all, some offering their names to stand again and some leaving us. I wish them well. Thankyou to Desert Cove residents and members for your support as I begin my final year as Director-at-Large.

Respectfully submitted,

June MacGregor
