

Jack and Margie Schultz moved here to Desert Cove three years ago in February. They live at 934 – 9th Avenue. They were living in Lake Country but were looking for a house in Vernon. They looked at other places, but they just liked how this community looked.

Jack met Margie in Red Deer Alberta. This is a second marriage for both of them and they have been married for 18 years. They are a perfect complement to each other. Jack is

larger than life with a smile that never ends. Jack's dear wife Margie is the perfect complement to Jack's outgoing personality. She is a very warm and caring person who grew up in farm country in Alberta and then became a farmer's wife and raised her family with hard work and lots of love.

Jack joined the army at seventeen and enlisted in the dental corps with twenty years of service. After leaving the army he worked for a dental supply company for over twenty years, ending his career as manager of Western Canada. Jack also had several acreages and a "Hobby Farm" as well as twelve rental units in BC that kept him busy. After retiring, Jack and Margie decided to move to BC and leave Alberta behind. Even though Jack was born in Alberta, he was familiar with the Enderby area as his dad was born there. The house his dad was born in is still standing near Highway #97.

At Desert Cove Jack serves on the Board of Director as Vice President. He takes part in the men's aquatic exercise program and loves to play crib when he is not off riding his bike. Jack is always willing to help out and volunteer for any special event when needed. He just participated in helping out with the Desert Cove play that was presented on Saturday March 25th.

Jack has been involved with the Rotary club for 30 years in Alberta, and now volunteers with the Vernon Silver Star Rotary club.
